Symfony

- Minimale Konfiguration
- Konvention vor Konfiguration
- Bundles

# Symfony Schnell-Einstieg

# Symfony Schnell-Einstieg

## Installation

```
atabaksahraei$ php composer.phar create-project  
symfony/framework-standard-edition demo/ 2.2.1
```

## Grundeinstellungen

```
#app/config/parameters.yml  
parameters:  
    database_driver:      pdo_mysql  
    database_host:       localhost  
    database_port:       ~  
    database_name:       symfony  
    database_user:       root  
    database_password:   root
```
